*DEPARTMENT OF VETERINARY MIRTH

S. Glasofer, D.V.M.

Show me a fellow with two feet planted firmly on the ground, and I'll show you someone who's about to make a difficult putt.

. . . . . .

Client: "That horse you checked for me is almost blind."
D.V.M.: "Well, I told you he is a fine horse but he just didn't look good."

. . . . . .

After much complaining to a breeder about the price of purebred dogs, the prospective buyer was referred to a used cur dealer.

. . . . . .

Then there is the new medication that makes you look younger. When you take it you get acne.

. . . . . .

Two veterinarians who had been partners decided to go their separate ways but were unable to agree on a fair division of their jointly owned assets.

After they consulted with a wise old judge a settlement was reached. He advised that one practitioner divide the property and that the other have first choice of the two portions.

. . . . . .

Veterinary practitioners don't have to do any jogging. They're already in the rat race.

. . . . . .

A beautiful young WAC went to the base doctor and said, "Doctor, you must help me. I think I need an operation."

"Major?" asked the doctor.

"No," she sighed, "Lieutenant."

. . . . . .

Every dog has his day, but puppies have weak ends.

. . . . . .

There's a new treatment for obesity—it's a bottle of 100 aspirins. You spill them on the floor each day and pick up the tablets one at a time.

. . . . . .

Client: "Got anything to cure fleas on a dog?"
D.V.M.: "Don't know. What's wrong with the fleas?"

. . . . . .

Thought for the month: Money talks . . . it says goodbye.
